## **Materials**

### **Yarns:**

- Black: Head & body, wings, eyes and tail
- White: Head & body, eyes
- Yellow: beak and feet

Yarn weight is not important, but please choose the hook accordingly. I used Catona cotton from Scheepjes (which is 25 gram - 62.5 m) with a 2.5 mm hook. The end product is around 8.5\*7\*7cm big.

### **For stuffing:**

- You can use polyfill or any other type of filling you like.

## **Abbreviations**

Rnd = round

ch = chain

st = stitch

ss = slip stitch

sc = single crochet

bbs = basic five stitch bobble stitch\*

dec = decrease by sc 2 together

inc = increase by sc 2 in one st

'...' = the part you need to repeat

\* How to crochet bbs:

1. On a wrong-side row, work to the position of the bobble. Wrap the yarn over the hook, work the first stitch, and skip the last stage to leave two loops on the hook.
2. Work the second and third stitches in the same way. You now have four loops on the hook.
3. Work the remaining two stitches of the bobble in the same way, so you end up with six loops on the hook.
4. Wrap the yarn over the hook and draw it through all six loops to secure them and complete the bobble. You may find it helpful to gently poke the bobble through to the right side with the tip of one finger as you draw the securing loop through.
5. Continue along the row, working bobbles as required. When working the following right-side row, take care to work one stitch into the securing stitch at the top of each bobble.
